PROFESSIONAL SUMMARY

Computer Engineering student (3.9 GPA) pursuing a minor in Cybersecurity and seeking internship or early-career opportunities in software engineering, technology, and related engineering fields. Experience leading a Python software team, developing user interfaces, coordinating technical integration, and contributing to database and LLM-focused academic work.

EDUCATION

Inter American University of Puerto Rico, Bayamón Campus | *Expected Graduation: 2028*
B.S. in Computer Engineering | Minor in Cybersecurity | GPA: 3.9/4.0

TECHNICAL SKILLS

Programming: Python, C++, Java | Data: JSON, Database Development
Tools: Git, GitHub, GitLab, Visual Studio Code, Multisim | Operating Systems: Windows, Linux

SELECTED PROJECTS

Smart Course Schedule Optimizer | *Software Design Team Project* | *In Progress*

- Lead a three-member team developing a Python course-scheduling application with a graphical user interface.
- Develop GUI components and coordinate software integration, requirements, testing, and project documentation.

SleepMind | *Academic Team Project*

- Contributed to database development for a Python application analyzing sleep data and recommending Spotify playlists.
- Researched large language models (LLMs) for potential personalized recommendation features.

EXPERIENCE

Student Assistant, Centro de Acceso a la Información (CAI) | *Jan 2026–Present*
Inter American University of Puerto Rico, Bayamón Campus

- Assist students, maintain academic materials and attendance records, and support daily center operations.

Administrative Assistant, Management Office | *Summer–Dec 2025*
Inter American University of Puerto Rico, Bayamón Campus

- Responded to student inquiries, organized records, and supported administrative workflows.

LEADERSHIP & HONORS

Board Member (Vocal), CAHSI | Board Member (Vocal), SCIICOM
Rector's List — Two Consecutive Years | University Honors Program (2024–Present)
Academic Team Leader: Logic Circuits, Advanced Programming, Cybersecurity, Software Design

PROFESSIONAL DEVELOPMENT & LANGUAGES

Enterprise Full Stack with Spring Boot 4 and Angular 21 — Training, Mar 2026
Spanish: Native | English: Basic proficiency
